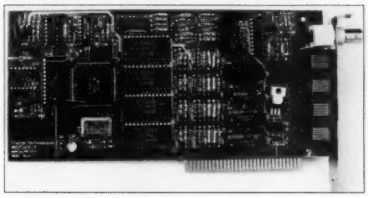
INTRODUCING MAUcard™ Plus
The First 10BASE-T PC Hub Card



MAUcard Plus' features:
-Four RJ45 ports and one Thinnet Port
-Thinnet Coax port: for cascading or connecting thinnet to 10BASE-T

Don't buy an expensive 10BaseT HUB to add just a few ports to your network. **MAUcard Plus** helps you when you need it most at an affordable price. MAUcard Plus comes with a two year warranty.

NETWORK RESOURCE MANAGEMENT

System manager headaches?
NEW

Take two of these... *or* one of these.

Take the work out of Networks.

Batch Console creates an environment on a Novell Network similar to "Novell Login Script", but utilizes the more sophisticated DOS *batch file environment* to give you unmatched control and flexibility over your system. And it's *easy to use.*

UPS MONITORING
. . . FOR NOVELL® NetWare

- datasafe No UPS monitoring card. Saves dollars & slots.
- datasafe Works with any UPS.
- datasafe Closes down database servers and batch servers.
- datasafe Notifies all workstations of power failure.
- datasafe Shuts down Novell® file servers.

DataSafe requires: Novell NetWare 2.11 or higher, IBM or compatible file server and workstations, and existing UPS.

NOW SHIPPING!

Share ANY printer ANYWHERE on your network!

Network Assistant Plus *VAP/NLM*™ gives you all the fire power of our classic Network Assistant Plus™ while slashing resident memory usage to a maximum of 12.5 K or a minimum of 0 K, depending on user defined configurations. Network Assistant Plus *VAP/NLM*™ fits like a glove whether your file server relies on VAP or NLM technology. *We are 100% compatible with NetWare® print queues.*

- **Our POP-up window in application** lets you choose your printer, select fonts, set print parameters, send messages and much more, quickly and easily.
- **You don't have to use Novell's PCONSOLE!** Our simple installation program will have you sharing printers within five minutes...or sooner!
- **Share as many printers as you have parallel or serial ports.**
- **"Technical support is excellent."** *Info World*, April, 1989.

Network Assistant Plus *VAP/NLM* is only $385 per file server. Our classic Network Assistant Plus is still only $295 per file server.

Upgrade Network Assistant Plus to *VAP/NLM* for only $95 (limited time offer).

To Order or for the name of your nearest dealer or for additional information: CALL 3PS at 213/841-2260

3PS
3rd Planet Software, Inc.

9819 National Blvd, Suite #2, Dept. B, Los Angeles, CA 90034
Phone: 213/841-2260 BBS 213/841-0176 FAX 213/841-2265

Network Assistant Plus VAP/NLM requires DOS 2.0 or greater and NetWare 2.1 or greater. Runs on NetWare 386. NetWare® is a registered trademark of Novell.

One Way to WAN
X.25 cost-effectively connects remote LANs
Patricia Schnaidt
January, page 96

Foundation Plant.

Plant this new multi-port repeater in your AS/400-System 3X environment and you'll have an ongoing solid foundation...one you can get quickly from Wise Components.

The PowerStar II™ from Transition Engineering lets you locate devices up to 5,000 feet from a CPU or controller. It also allows disconnection of any device, without affecting other lines, because each port has isolated transceiver circuitry.

This unit has a self-test function, host and port activity indicators and power indicator. Available for many wiring schemes using RJ-11 or RJ-45 connectors, it can even have a built-in twinax interface!

Call Wise now for superior service. And get your foundation started.
